GBN Landscape Maintenance Services

Spring Landscape Maintenance Services

- **Prune** most shrubs & evergreens (excluding spring flowering shrubs like lilacs, etc)
- **Prune** spring flowering shrubs too, even though it will reduce this year's flower display
- **Removing Sucker-growth** and/or low branches on trees
- **Clean-up Landscape Beds:** remove debris, fertilize plants, & evaluate winter damage
- **Top-dress Bark Mulch** to give a fresh look and maintain a 3 inch layer
- **Aerate Mulch** to give a fresh look to mulch beds that don't need top-dressing
- **Power-rake Lawn** to remove dead grass and thatch
- **Edge/Trim Lawn** along sidewalks, curbs and driveway
- **Edge Planting Beds** to give a clean defined shape (for beds without any edging)
- **Water Feature Cleaning & Startup**

Summer Landscape Maintenance Services

- **Trim Evergreens**
- **Trim Spring Flowering Shrubs**
- **Removing Sucker-growth** and/or low branches on trees

- **Invasive Plant Removal** on plants such as buckthorn, etc
- **Remove** debris, dead plants, old shrubs, etc
- **Edge/Trim Lawn** along sidewalks, curbs and driveway
- **Edge Planting Beds** to give a clean defined shape (for beds without any edging)
- **Water Feature Cleaning**
- **Top-dress Bark Mulch** to give a fresh look (not recommended more than once per year)

September Landscape Maintenance Services

- **Divide Perennials** in September/October to bring new life to old perennials and gardens
- **Core Aerate Lawn** in September (benefits root development, soil and thatch layer)
- **Over-seed Lawn** in September (do not use weed killers when growing new seed)
- **Fertilize Lawn** around Labor Day and Halloween (most important applications of the year)
- **Plant Fall Bulbs** in September/October for early spring color

Fall Landscape Maintenance Services

- **Fertilize Lawn** around Halloween (most important application of the year)
- **Plant Fall Bulbs** in September/October for early spring color
- **Clean up Leaves** (we haul them away too)
- **Cut Back Perennials** (you may leave some perennials standing for winter interest)
- **Winterize Roses** and/or semi-hardy plants
- **Water Feature Shut Down**
- **Apply Rabbit Repellants**, guards or rodent bait stations as needed.
- **Invasive Plant Removal** on plants such as buckthorn, etc
- **Top-dress Bark Mulch** to give a fresh look (not recommended more than once per year)
